THE ORIGINAL MAG WHEEL

Rat rods, hot rods, custom classics, and early muscle cars – they inspire an excitement and a yearning for a time when engine tuning was done with a wrench and a screwdriver instead of a laptop. Welding was often considered a critical skill for doing your own bodywork, and chrome was king. We get that feeling. That’s why our latest Hot Rod and Early Muscle catalog features components for vehicles from classic 1930’s hot rods all the way through the muscle cars of the 60’s and 70’s.

# MANUFACTURERS INDEX

ACE Racing Clutches .....	3	Energy Release.....	190	MOMO .....	321	Sparco.....	467
